Product Overview

Full Flow Isolation Valve

This full flow isolation valve is engineered for HVAC&R and plumbing applications, providing a reliable shut-off mechanism while maintaining maximum flow capacity. Constructed from durable, corrosion-resistant materials, it ensures longevity and efficient system performance. It is an ideal solution for residential, commercial, and industrial settings where precise pipework isolation is required for maintenance or repair.

Technical Specifications

Available Sizes

Product Code	Specification
E00011	15mm x 15mm
E00012	22mm x 22mm

Applications

HVAC, Plumbing, Residential, Commercial, Industrial

Manufacturing Standards

Manufacturing Highlights

- 20 years of industry expertise
- Large scale, cutting-edge manufacturing
- Guaranteed quality and cost efficiency
- Green manufacturing processes
