

Full Screen Design Television

This TV features a full-screen design for an immersive viewing experience. Its sleek and modern aesthetic seamlessly integrates into any living space.

Product Overview

N Series Full Screen Design

The N series television features an advanced full-screen design with an exceptionally high screen-to-body ratio, minimizing bezel constraints for a truly immersive viewing experience. Utilizing the OD20 design architecture, the fuselage is engineered to be thinner, simpler, and more fashionable, allowing it to integrate seamlessly into any professional or residential environment. This display combines aesthetic elegance with high-performance visual processing to deliver sharp details, vibrant colors, and smooth motion.
