

Full-Size Computer Keyboard

This is a standard full-size keyboard with a QWERTY layout, including a numeric keypad, function keys and cursor control keys. The keyboard is typically used as a peripheral device for inputting data into a computer system.

Product Overview

Professional Full-Size Keyboard

This standard full-size keyboard is designed for efficient data entry and general computing tasks. Featuring a classic QWERTY layout, it includes a dedicated numeric keypad, a full row of function keys, and precise cursor control keys. Its durable black plastic construction makes it a reliable peripheral device suitable for any office or home workstation.
