

# Full-Size PICMG 1.0 CPU Card

This full-size CPU card conforms to the PICMG 1.0 standard. It supports Intel Core Duo/Core2 Duo processors and up to 4GB of DDR2 memory.

## Overview

### Industrial-Grade PICMG 1.0 Computing

This full-size CPU card adheres to the PICMG 1.0 industry standard, engineered specifically for demanding industrial computing environments. It provides a robust architecture capable of supporting complex embedded systems, data acquisition, and automated control tasks. Designed for reliability and longevity, this card ensures consistent performance in harsh operational conditions.

## Technical Specifications

Form Factor	PICMG 1.0 Full-Size
Ideal Applications	Embedded Systems, Data Acquisition, Industrial Control, Automation

## Performance

### Key Performance Metrics

<b>1 Ver</b> PICMG Standard
--------------------------------

## Design Features

### Build Quality

Industrial Grade • Harsh Environment Ready • Reliable Operation
