Product Overview

Full Spectrum Daylight Illumination

This table lamp is engineered to scientifically tune light for readers, crafters, and computer users, optimizing black-white contrast while minimizing flicker and glare. By simulating natural sunlight, it provides clearer, brighter illumination that enhances color vividness and sharpens detail. Its flexible gooseneck design and durable electronic power system ensure both precise positioning and decades of reliable performance.

Technical Specifications

Bulb Lifespan

10000 hours
Rated Life

Safety Information

Contains a trace amount of mercury; handle with care.

Design & Aesthetics

Design Features

- Bendable gooseneck for adjustable angles
- Stable base
- Wood-grain finish options
- Ergonomic construction

Available Finishes

Beige, Black, Walnut, Burlwood, Beech, Oak, Cream + Oak, White + Black

Usage & Application

Recommended Applications

Reading • Crafting • Computer Work • Detailed Hobbies
