

Full Suspension Aluminum Mountain Bike

This mountain bike features a high-strength aluminum alloy frame with shaped shock absorption. A MOZO suspension fork and aluminum disc brakes provide reliable off-road performance.

Product Overview

Built for the Wild

This 26-inch full suspension mountain bike is engineered for outstanding performance across a variety of complex surfaces. Designed for off-road enthusiasts, the frame incorporates a rear shock absorber to ensure enhanced comfort and control on uneven terrain. It is an ideal choice for recreational and intermediate riders seeking a reliable, non-folding mountain vehicle.
