

Full Suspension Mountain Bicycle

This full-suspension mountain bicycle is designed for off-road riding. It features a front suspension fork and rear shock absorber for enhanced comfort and control on uneven terrain.

Overview

Full Suspension Mountain Bicycle

This full-suspension mountain bicycle is engineered for demanding off-road environments, offering superior comfort and control. Featuring a robust yellow frame, it integrates both a front suspension fork and a rear shock absorber to effectively absorb impacts on uneven terrain. Designed with optimized frame geometry and high-traction knobby tires, this bike provides a responsive and stable riding experience for both climbing and descending.
