

# Full Suspension Mountain Bike

This full suspension mountain bike is equipped with a durable frame, front suspension fork, and rear shock absorber. It has disc brakes for reliable stopping power and a multi-speed drivetrain for versatile gear options.

## Overview

### Built for Trail Performance

This full suspension mountain bike is engineered for comfort and control on challenging terrain. Featuring a robust frame combined with a front suspension fork and rear shock absorber, it effectively absorbs impacts during off-road rides. With reliable disc brakes and a multi-speed drivetrain, this bike offers the versatility and stopping power needed for recreational trail exploration.
