

# G24 LED Lamp

This G24 LED lamp replaces traditional G24 CFL lamps. Its linear array of surface-mount LEDs delivers efficient, uniform illumination, and its robust housing ensures easy installation.

## Product Overview

### Efficient G24 LED Replacement

This G24 LED light is designed as a direct replacement for traditional G24 CFL lamps. It features a linear array of surface-mount LEDs that provide efficient and uniform illumination. With a robust housing and a standard G24 base, it ensures easy installation in existing compatible fixtures, offering a long-lasting and energy-efficient lighting solution.

## Technical Specifications

|                |                          |
|----------------|--------------------------|
| Base Type      | G24                      |
| LED Technology | Surface-mount LEDs (SMD) |

## Key Features
