

G80 Clevis Slip Hook with Latch

This G80 clevis slip hook with latch is designed for reliable lifting. The hook is made from high-grade alloy steel and includes a safety latch for secure load attachment.

Product Overview

Professional Grade G80 Clevis Slip Hook

This G80 Italian-type clevis slip hook is engineered for high-performance rigging, hoisting, and material handling applications. Constructed from forged alloy steel that has been quenched and tempered, this hook provides exceptional durability and strength under load. It features a reliable safety latch to prevent accidental disengagement, ensuring secure load attachment during critical operations.

Technical Specifications

Standards

EN818-2 • G80 Grade

Material

Forged Alloy Steel

Processing

Quenched and Tempered, 100% Magnaflux Crack Detection

Performance Metrics

Load Testing

2.5 x WLL

Proof Load Multiplier

4 x WLL

Ultimate Load Multiplier

Physical Characteristics

Standard Colors

- Red
- Yellow

Surface Finish

Powder Plastified
