

Galvanized Steel Aerial Cable Hook

This galvanized steel hook is designed for aerial cables and service lines. It is used with HEL5561, HEL5562, HEL5574, SOT101.1, SOT101.2, SOT21, SOT21.1, SOT21.2, SOT21.3, SOT21.16, SOT21.116, SOT21.216, etc., depending on the size of the inner threads.

Product Overview

Aerial Cable Hook Solution

This galvanized steel hook is designed specifically for aerial cables and service lines. It features a durable, corrosion-resistant hot-dip galvanized finish, ensuring long-lasting performance in demanding outdoor environments. The component is engineered for compatibility with a wide range of mounting hardware, making it a versatile choice for electrical power transmission and distribution applications.
