

Galvanized Steel J-Hook Cable Support

This J-hook is designed for supporting aerial cables and service lines. It is made of hot-dip galvanized steel for corrosion resistance and durability.

Product Overview

Professional Cable Support

The SOT16.10 J-Hook is a robust cable support solution designed for aerial cable management and service line installations. Crafted from high-strength steel with a hot-dip galvanized finish, it offers superior corrosion resistance for demanding outdoor environments. Its J-shaped design allows for efficient cable placement, while the threaded M16 connection ensures reliable, secure fastening in transmission and distribution power systems.

Technical Dimensions

Type	Dimensions(mm)				Failure Load (kN)		Pack (pcs)
	L	L1	d	A	Fx	Fy	
SOT16.10	203	95	M16	17	8.8	6.6	70

Dimensional Details

Parameter	Value
Total Length (mm)	203
Threaded Length (mm)	95
Thread Diameter	16
Dimension A (mm)	17

Performance

Failure Load Ratings

8.8 kN

Failure Load Fx

6.6 kN

Failure Load Fy

Material & Packaging

Material	Steel, Hot-dip galvanized
Standard Pack	70 pcs
