Product Overview

Professional Rigging Hardware

This collection of galvanized rigging hardware, including DIN741 wire rope clips and high-strength D shackles, is engineered for secure and reliable lifting and load-bearing applications. The galvanized steel construction provides exceptional corrosion resistance, making them ideal for use in demanding and outdoor environments. These essential tools are designed to facilitate strong connections and terminations for wire rope systems across various industrial sectors.

Wire Rope Clips

Standard	DIN741
Material	Galvanized Steel
Primary Application	Creating secure loops and terminations in wire rope

D Shackles

Available Sizes	
<ul style="list-style-type: none"> 28mm 	
Material	Galvanized Steel
Application	Rigging and lifting operations
