

Gap Bed Engine Lathe

This gap bed engine lathe is designed for machining large diameter workpieces with its removable gap. It features a hardened and precision ground bed for enhanced accuracy and durability, along with a rapid traverse selection lever.

Overview

Heavy Duty Gap Bed Lathe

The HL660X2000 is a robust heavy-duty gap bed lathe engineered for precision metal turning operations. Featuring a wide, hardened, and precision-ground V-bed, this machine offers exceptional stability and reduced vibration during demanding machining tasks. Its versatile design, including a removable gap bed, allows operators to handle large diameter workpieces with ease, making it a reliable solution for diverse industrial requirements.

Technical Specifications

Max Turning Diameter (Gap)	790 mm
Spindle Bore	80 mm
V-Bed Width	330 mm

Performance

Spindle Speed Range

Speed Steps	15

Features

Key Features

- Removable gap bed for large diameters
- Rapid traverse selection lever on saddle
- Hardened and precision ground bed ways
- Rigid construction for stability

Certifications

CE

Safety

Safety Equipment

- Emergency stop buttons
- Safety interlocks
