

Garage Storage Cabinet with Adjustable Shelves

This garage cabinet features adjustable shelves and peg hook panels for organizing tools. It has recessed aluminum handles and optional solid wood worktop and drawer shelf sold separately.

Product Overview

Professional Garage Storage

This durable garage storage cabinet is designed to provide efficient organization for professional workspaces. It features highly customizable interior space with adjustable shelving to accommodate tools and equipment of various sizes. The inclusion of integrated peg hook panels ensures that hand tools remain accessible and orderly, while the sleek design is completed with recessed aluminum handles.
