Overview

High-Efficiency Garden Jet Pump

This robust garden jet pump is designed for efficient water transfer, irrigation, and household pressure boosting applications. It features a high-efficiency, maintenance-free motor equipped with a thermal overload protector for safety and longevity. The system utilizes an anti-corrosive and rust-proof hydraulic design, ensuring consistent performance for residential and light commercial clean water needs.

Technical Specifications

Safety & Protection

- Thermal overload protector
- Waterproof switch
- Anti-corrosive hydraulic system
- Rust-proof construction

Convenience Features

Maintenance-free motor • Carry handle • Plug-and-play cable

Motor Configuration

1 Phase, 3 Phase, 50Hz, 60Hz
