

Gardening Gloves with Patterned Design

These durable gardening gloves protect hands during gardening. One glove features a white background with a green and blue splatter pattern, while the other has a green base with green line art; both include reinforced palms and elasticated wrists.

Product Overview

Professional Gardening Utility

These gardening gloves are engineered to provide a blend of durability, comfort, and precise dexterity for varied horticultural tasks. Featuring reinforced palms and fingertips, they offer excellent protection and grip during activities ranging from weeding and pruning to cultivation. The design includes elasticated wrists for a secure fit that prevents soil and debris from entering.

Design and Aesthetics

Design Features
