

Garnet Abrasive Sandpaper

This sandpaper utilizes garnet abrasive and a plastic or resin adhesive. It is used for grinding and comes in various sizes and grits.

Overview

High-Performance Garnet Abrasive Paper

This dry garnet sandpaper is engineered for professional wood grinding and surface preparation. Featuring a durable garnet abrasive bonded with high-quality plastic or resin adhesive, it ensures long-lasting performance and consistent results. The versatile range of available grits makes it an essential tool for achieving smooth finishes on various woodworking projects.

Technical Specifications

Abrasive Material	Garnet
Bonding Type	Plastic or resin adhesive glue
Paper Weight	B-weight, C-weight, D-weight

Dimensions & Sizing

Standard Sheet Size

230 mm
Width

280 mm
Length

Roll Specifications

Dimension Type	Measurement
Maximum Coil Width	690 mm
Minimum Width	93 mm

Application & Grit

Available Grits

24 • 36 • 40 • 50 • 60 • 80 • 100 • 120 • 150 • 180 • 220 • 240

Primary Application	Grinding and surface smoothing
