

# Gas-Powered Recreational Scooter

This is a gas-powered scooter designed for recreational use. It features a compact design with a low center of gravity, a red frame, a black seat, and black handlebars.

## Overview

### Recreational Gas Scooter

The JC-GS011 is a robust, gas-powered recreational scooter designed for agility and ease of use. Featuring a 43CC 2-stroke engine and a chain-drive transmission, it provides reliable performance for recreational riding. Its compact, low-center-of-gravity design ensures stability, while the pneumatic rubber tires and dual-brake system prioritize safety and handling.

## Technical Specifications

### Standard Power

**1.5 KW**

Standard Power

Engine Displacement	43 CC
