

Gas-Powered Step-Through Scooter with Luggage Rack

This gas scooter has a step-through frame, a single seat, and a rear luggage rack. It features a front fairing with integrated headlight and turn signals, alloy wheels, and a side-mounted exhaust.

Overview

Gas-Powered Step-Through Scooter

This gas-powered scooter features a convenient step-through frame design, making it an ideal choice for urban commuting and short-distance transport. Equipped with a rear luggage rack for added utility, it balances functionality with a sleek black and red aesthetic. Its robust alloy wheels and integrated lighting systems ensure reliable performance for professional and personal use.
