Product Overview

Professional Backpack Brush Cutter

The Backpack Brush Cutter 328 is a powerful and versatile tool designed for efficient cutting and trimming in various landscaping and agricultural applications. Featuring a 30.5ml gasoline engine, it provides the reliability and power necessary for demanding vegetation clearing tasks. Its ergonomic backpack design ensures operator comfort during extended use, while the robust construction makes it an ideal solution for clearing dense brush and managing large areas quickly.

Technical Specifications

Discharging Capacity	30.5 ml
Mating Power Engine	1E36F

Performance

Cutting Width

415 mm
Cutting Width

306 mm
Blade Length

Physical Properties

Net Weight	10 Kg
