

Gasoline Brush Cutter with 25.4CC Engine

This gasoline-powered brush cutter is designed for trimming grass, weeds, and brush. It features a two-stroke engine, a straight shaft, and a cutting head with a blade or string trimmer attachment.

Product Overview

Professional Performance

This gasoline brush cutter is engineered for efficient landscape maintenance, offering reliable performance for trimming grass, weeds, and brush. Powered by a 25.4CC two-stroke engine, it provides the necessary power for both residential and commercial vegetation control. Its lightweight design and versatile cutting options make it a practical tool for professional landscapers and homeowners alike.
