Product Overview

Professional Gasoline Water Pump

This portable gasoline-powered water pump is engineered for reliable performance in remote locations lacking electrical access. Built with a sturdy metal frame and vibration-dampening rubber feet, it offers exceptional stability during heavy-duty operations. Its versatile design makes it an ideal choice for agricultural irrigation, construction site dewatering, and emergency water management.

Technical Specifications

Engine Type	Gasoline-powered
Primary Applications	Irrigation, Construction Sites, Emergency Water Removal

Design Features

Portability & Construction

- Durable metal frame for easy transport
- Compact design for space-efficient storage
- Integrated vibration-reduction rubber feet
- Dedicated fuel tank with safety warning label
