

Gasoline Generator

This gasoline generator provides portable power for various applications. It features a robust frame, multiple AC outlets, and safety features.

Overview

High-Performance 3-Phase Generator

The EM13900-3 is a robust 3-phase gasoline-powered generator engineered for reliable portable power. With a powerful 20HP engine, it delivers a rated output of 9.5kW and a maximum output of 10kW, making it suitable for demanding applications like construction sites and emergency backup. The unit is designed for convenience and ease of use, featuring an integrated electric start system, wheels, and transport handles.
