

Gasoline Generator

This gasoline generator is a reliable power source suitable for various applications. It features a durable frame and a user-friendly control panel.

Product Overview

Reliable Power Solution

The RZ6500LPG generator is a versatile power source engineered for consistent performance across various applications. Built with a durable frame, it offers a stable and reliable power supply suitable for both professional and general use. The unit features an intuitive control panel, electric start functionality, and multiple AC outlets, ensuring ease of operation and flexibility for connecting essential equipment.

Technical Specifications

Fuel Type	Gasoline, LPG
Starting System	Electric Start
Model Identifier	RZ6500LPG

Key Features

Generator Performance

6500 W
Rated Output

Design & Utility

- Durable protective frame
- User-friendly control panel
- Multiple AC power outlets
- Portable design
