

Gasoline Generator GF2500

The GF2500 is a gasoline generator engineered for reliable power supply. Its durable frame ensures protection and portability, while providing stable AC output suitable for both residential and commercial applications.

Overview

Reliable Power for Diverse Needs

The GF2500 is a robust gasoline generator engineered to provide a dependable power supply for both residential and commercial applications. Designed with a durable protective frame for enhanced portability, it features an efficient engine and automatic voltage regulation to ensure stable AC output. This unit is an ideal solution for backup power during outages or for powering equipment at remote job sites.

Technical Specifications

Model	GF2500
Power Source	Gasoline
Voltage Regulation	Automatic (AVR)
Starting System	Recoil Start

Safety & Maintenance

Design Advantages

- Durable frame for protection
- Portable design
- Fuel-efficient engine operation
- Easy maintenance

Key Safety Features	Overload Protection, Low Oil Shutdown
