

Gasoline Plate Compactor

This plate compactor features a gasoline power system for a better compaction effect. It has a folding handle for easy transportation and storage.

Product Overview

High-Performance Compaction

This gasoline-powered plate compactor is engineered for demanding construction, landscaping, and road maintenance projects. It combines a powerful engine with a durable steel base plate to deliver high compaction force and effective results on various surfaces. Designed with operator comfort in mind, the unit features a low-vibration system and a foldable handle for convenient transport and storage.

Technical Specifications

Key Performance Metrics

25000 N Centrifugal Force	5500 vpm Exciter Speed	35 cm Compaction Depth	32 m/min Travel Speed

Technical Data

Specification	Value
Plate Size	580 x 500 mm
Operation Weight	106 kg
Engine Displacement	196 cc
Engine Power	6.5 HP

Design & Features

Water Sprinkler Kit

Paving Pad Kit

The plate compactor supports optional attachments like a water sprinkler kit for asphalt and a paving pad kit for delicate surfaces.

Key Features

- Folding handle for easy transportation and storage
- Open plate design for self-cleaning
- Sealed belt cover to prevent sand and soil ingress
- Low vibration system for improved operator comfort

Available Accessories

Water Sprinkler Kit, Paving Pad Kit
