Overview

Professional Compaction Performance

This gasoline-powered plate compactor is designed for high-efficiency soil compaction in construction and landscaping projects. Featuring an open plate design for self-cleaning and a sealed belt cover to protect internal components, it ensures durability and consistent performance. The unit combines low vibration with high compaction force, making it an ideal choice for preparing foundations, pathways, and driveways.

Technical Specifications

Plate Size	535x370 mm
Centrifugal Force	11000 N
Exciter Speed	5500 vpm
Compaction Depth	25 cm
Travel Speed	25 m/min
Operation Weight	70 kg

Engine & Power

Engine Details

163 cc

Displacement

5.5 HP

Power Output

Features

The plate compactor is compatible with optional water sprinkler kits for dust suppression and paving pads for delicate surfaces.

Key Features

- Folding handle for easy transportation and storage
- Open plate design for self-cleaning
- Sealed belt cover to prevent sand and soil ingress
- Low vibration system for operator comfort
- Powerful gasoline system

Available Accessories

Water Sprinkler Kit, Paving Pad Kit
