Product Overview

High-Performance Compaction

This gasoline-powered plate compactor is engineered for demanding construction environments, offering a balance of high compaction force and low vibration. Designed with a folding handle for efficient transportation and storage, it features a self-cleaning open plate and a sealed belt cover to protect internal components from debris. It is an ideal solution for foundation preparation, trench compacting, and asphalt repair.

Technical Specifications

Engine Details

196 cc

Displacement

6.5 HP

Power

Performance

Metric	Value
Centrifugal Force	25000 N
Exciter Speed	5040 vpm
Compaction Depth	35 cm
Travel Speed	22 m/min

Physical Attributes

Physical Specs

- Plate Size: 620x400 mm
- Operation Weight: 117 kg

Features

The unit supports optional attachments like water sprinkler kits and paving pads for versatile applications.

Design Features

Folding Handle • Self-Cleaning Plate • Sealed Belt Cover • Low Vibration

Available Accessories

Water Sprinkler Kit, Paving Pad Kit
