

Gasoline Plate Compactor with Folding Handle

This plate compactor features a folding handle for easy storage and transportation. Its open plate design facilitates self-cleaning during operation.

Overview

High-Performance Gasoline Plate Compactor

This gasoline-powered plate compactor is designed for superior compaction performance with a low-vibration system to enhance operator comfort. It features a folding handle for convenient storage and transport, alongside an open plate design that ensures self-cleaning during operation. Built for durability, it includes a sealed belt cover to protect internal components from sand and soil ingress.

Performance Metrics

Key Performance Metrics

11000 N

Centrifugal Force

25 cm

Compaction Depth

25 m/min

Travel Speed

Engine Specifications

Engine Displacement	163 cc
Engine Power	5.5 HP
Fuel Type	Gasoline

Technical Details

Plate Size	535 x 371 mm
Exciter Speed	5500 vpm
Operation Weight	64 kg

Key Features

Design Features

- Folding handle for easy transportation and storage
- Open plate provides self-cleaning functionality
- Sealed belt cover to prevent sand and soil entry
- Low vibration combined with high compaction performance
- Gasoline power system for better compaction effect

Optional Accessories

Water Sprinkler Kit

Paving Pad Kit

The compactor can be equipped with a water sprinkler kit for asphalt work or a paving pad for delicate surfaces.

Optional Kits

Water Sprinkler Kit, Paving Pad Kit
