

Gasoline Plate Compactor with Folding Handle

This plate compactor features a folding handle for easy transportation. Its open plate design offers self-cleaning functionality.

Product Overview

High-Performance Compaction

This gasoline-powered plate compactor is engineered for professional construction and landscaping applications, delivering reliable compaction force for soil, gravel, and asphalt. Designed with user efficiency in mind, it features a folding handle for streamlined transportation and storage, alongside a sealed belt cover that protects internal components from debris. The open plate design facilitates self-cleaning, ensuring consistent performance and reduced maintenance in demanding job site conditions.

Technical Specifications

Engine Performance

196 cc

Displacement

6.5 HP

Power

Compaction Performance

Metric	Value
Centrifugal Force	25000 N
Exciter Speed	5500 vpm
Compaction Depth	35 cm
Travel Speed	32 m/min

Physical Dimensions & Weight

- Plate Size: 590 x 502 mm
- Operation Weight: 101.0 kg

Features & Accessories

The QTP9865 features a robust design compatible with optional water sprinkler and paving pad kits for versatile job site application.

Available Accessories

Water Sprinkler Kit • Paving Pad Kit

Key Features

Folding Handle, Self-Cleaning Open Plate, Sealed Belt Cover, Low Vibration
