

Gasoline Power Generator

This gasoline-powered generator provides a robust and reliable power solution for various applications. It features a durable frame, a powerful engine, and a control panel with multiple outlets and circuit protection for safe and easy operation.

Overview

Reliable Gasoline Power Generation

This gasoline-powered generator is engineered for consistent and robust performance in both residential and commercial settings. Designed with a durable frame and an efficient engine, it provides a dependable power supply for remote locations or emergency outages. The integrated control panel features comprehensive circuit protection and multiple outlets to ensure safe, user-friendly operation.

Technical Specifications

Performance Metrics

2.2 KW

Max Output (KG2000)

3.3 KW

Max Output (KG3600)

212 cc

Engine Displacement

Model Comparison

Feature	KG2000	KG3600
Rated Voltage	230V	230V
Rated Current	8.3A	13.0A
Power Factor	1.0	1.0

Features

Key Features

- Automatic Voltage Regulation (AVR)
- Durable frame construction
- Integrated circuit protection
- Multi-outlet control panel

Series

Warrior Series
