

Gasoline Powered Backpack Sprayer

This backpack power sprayer is designed for agricultural applications. It features a gasoline-powered engine, a chemical tank, and a blower system for efficient spraying.

Product Overview

Professional Backpack Power Sprayer

This gasoline-powered backpack sprayer is engineered for efficient agricultural applications, including crop protection, pest control, and fertilizer distribution. Designed for mobility and power, it features a robust engine and blower system suitable for use in fields and orchards. Its ergonomic backpack design ensures operator comfort during extended periods of use in demanding agricultural environments.

Technical Specifications

Power Source

Gasoline

Suitable Environments

- Field crops
- Orchards

Model Number

3WF-8A

Primary Applications

Crop Protection, Pest Control, Fertilizer Application
