

Gasoline Powered Chain Saw

This professional-grade gasoline chain saw is designed for demanding cutting tasks. It features a high-performance engine for optimal power and efficiency, along with a durable cutting bar and chain for smooth, precise cuts.

Overview

Professional Performance

This professional-grade gasoline chain saw is engineered for demanding cutting tasks, offering robust power and efficiency. Designed for versatility, it features a durable cutting system suitable for felling trees and pruning branches. The ergonomic handle design ensures operator comfort and reduced vibration during extended use, while integrated safety features like a chain brake and throttle lock prioritize user protection.

Engine Specifications

Displacement Options

- 45cc
- 52cc
- 55cc

Bore & Stroke Configurations

Displacement	Bore x Stroke
45cc	43 x 31 mm
52cc	45 x 31 mm
55cc	46 x 31 mm
