Product Overview

Professional Performance Gasoline Chain Saw

This high-performance gasoline chain saw is engineered for demanding professional applications, including tree felling, branch pruning, and firewood preparation. It features a robust, air-cooled two-stroke engine designed for efficient cutting and reliable operation in various environments. With an ergonomic design and durable construction, this tool provides the power and control necessary for heavy-duty forestry and landscaping tasks.

Engine Specifications

Engine Power

2500 W

Power Output

58 cc

Displacement

Engine Configuration

- Single-cylinder
- Air-cooled
- Two-stroke

Technical Data

Fuel and Oil

Parameter	Value
Fuel Capacity	550ml
Oil Ratio	25:1

Compatible Guide Bar Sizes

20 inch, 22 inch

Features

Key Capabilities

High-performance • Ergonomic handle • Durable chain • Heavy-duty construction
