

Gasoline Powered Chain Saw

This gasoline chain saw is a robust cutting tool suited for demanding applications. Its high-performance gasoline engine delivers reliable power and consistent cutting performance.

Overview

High-Performance Gasoline Chainsaw

This gasoline-powered chainsaw is a robust and powerful cutting tool engineered for demanding applications in forestry, landscaping, and construction. Featuring a high-performance engine, it delivers reliable power and consistent cutting performance for efficient operation. The design prioritizes user comfort with an ergonomic build to reduce fatigue, alongside essential safety features like a chain brake and anti-vibration system.

Engine Specifications

Rated Output Power

1.7 kw

Rated Output

8000 rpm

Relevant Speed

Power Type	Single Cylinder, Two-stroke, Air-cooling
Displacement	45 cc
Cylinder x Stroke	43mm x 31mm

Fuel & Fluids

Fuel Mixture Ratio	25:1 (Gasoline:Two-cycle Oil)
Fuel Tank Capacity	550 ml
Engine Oil Tank Capacity	260 ml

Cutting System

Compatible Guide Bar Sizes	16", 18", 20"
Chain Pitch	0.325 "
Chain Gauge	0.058 "

Physical Characteristics

Weight Specifications

Type	Weight
Gross Weight	7.9
Net Weight	5.3
