

Gasoline Powered Chainsaw for Tree Cutting

This gasoline chainsaw is a robust and reliable tool designed for demanding cutting tasks. Featuring a powerful engine and a durable chain, it delivers efficient performance for felling trees, pruning branches, and cutting firewood.

Product Overview

Professional Grade Cutting Power

The TL365 is a robust and reliable gasoline-powered chainsaw engineered for demanding cutting tasks. It provides efficient performance for felling trees, pruning branches, and processing firewood. Designed with ergonomics in mind, it minimizes operator fatigue while ensuring safety through integrated chain brakes and anti-vibration technology.

Product Details

Model Number	3311532216
Category	Garden machinery

Features

Safety Systems	Chain Brake, Anti-vibration System
----------------	------------------------------------

Application

Ideal Applications

- Felling trees
- Pruning branches
- Cutting firewood
