

Gasoline Powered Chainsaw for Wood Cutting

This gasoline-powered chainsaw is designed for demanding cutting tasks. It features a durable construction and powerful engine for efficient operation.

Product Overview

High-Performance Gasoline Chainsaw

This gasoline-powered chainsaw is engineered for demanding wood cutting tasks, combining a robust engine with durable construction. Designed for both professional and home use, it features an ergonomic handle for reduced fatigue during extended operation. Integrated safety mechanisms, including a chain brake and throttle lock, ensure reliable performance and user protection.

Engine Specifications

Displacement

38.3 cc

Displacement Option A

41 cc

Displacement Option B

Rated Power Output

1.2 kw

Power (38.3cc model)

1.4 kw

Power (41cc model)

Bore & Stroke Dimensions

Displacement	Bore & Stroke
38.3cc	39 x 31mm
41cc	40.5 x 31mm

Performance

Operating Speeds

- Idling Speed: 3000 rpm
- High Speed: 12500 rpm
