Product Overview

High-Performance Gasoline Chainsaw

This gasoline-powered chainsaw is engineered for efficient wood cutting, making it an essential tool for both gardening maintenance and professional forestry tasks. Designed with a robust two-handle configuration, it offers superior control and balance for the operator. The engine is optimized for reliability, requiring a specific fuel mixture to maintain peak performance and longevity.

Technical Specifications

Model Identifier	SF700
Fuel/Oil Mixture Ratio	25:1
Engine Type	2-Cycle

Safety & Operation

Operational Requirements

- Do not use pure gasoline
- Use designated 2-cycle engine oil
- Always mix fuel and oil before use

Safety Compliance

Warning Label Included • 2-Cycle Engine Required
