

Gasoline Powered Earth Auger

This gasoline powered earth auger is designed for efficient drilling in the ground. It features a 43cc 2-stroke engine with a recoil start and supports drill diameters from 2 to 10 inches.

Product Overview

Professional Grade Earth Auger

The Gasoline Powered Earth Auger is a robust and efficient tool engineered for professional drilling tasks. Powered by a reliable 43cc 2-stroke air-cooled engine, it delivers consistent performance with 1.75 horsepower to handle demanding ground conditions. This versatile unit supports a wide range of drill diameters, making it an essential piece of equipment for landscaping, fencing, and construction projects.

Engine Performance

Engine Performance Metrics

43 cc Displacement	1.75 HP Power	8000 RPM Max Engine RPM	0.9 L Fuel Tank Capacity

Engine Details

- Engine Type: 2-stroke, air-cooled
- Start Mode: Recoil start
- Fuel Type: Unleaded gasoline to 2-stroke oil mixture (25:1)

Drilling Capabilities

Drilling Specifications

- Max Auger RPM: 260
- Earth Drill Length: 36 inches
- Supported Drill Diameters: 2 to 10 inches
- Included Drill Diameters: 6 inches and 8 inches

Weight and Dimensions

Weight and Dimensions

Component	Net Weight (kg)	Gross Weight (kg)
Powerhead	9.5	10.8
With 6-inch Drill	14.8	17.1
With 8-inch Drill	15.2	17.5
