

Gasoline Powered Earth Auger

This gas-powered earth auger is designed for drilling holes in the ground. It features a two-handle design for ease of use and control.

Product Overview

High-Efficiency Earth Auger

This gasoline-powered earth auger is engineered for reliable performance in demanding landscaping and construction environments. Featuring a robust two-stroke engine and a two-handle ergonomic design, it provides excellent control and power for drilling operations. The continuous spiral bit ensures efficient soil removal, making it an ideal tool for fence post installation, tree planting, and general ground preparation tasks.

Technical Specifications

Model Number	EA490A
Engine Type	Two-stroke gasoline engine

Design & Ergonomics

Handle Type	Dual-handle design
Auger Bit Style	Continuous spiral

Application

Primary Applications	Fence post installation, Tree planting, Landscaping
