Product Overview

Professional Grade Earth Auger

This gasoline-powered earth auger is a robust tool engineered for high-efficiency drilling in various ground conditions. Designed with a durable steel bit and a powerful engine, it provides the torque necessary for tough soil penetration. Its ergonomic handle design ensures operator comfort and precise control, making it an ideal solution for fence post installation, tree planting, and soil sampling tasks.

Technical Specifications

Available Models	EA520, EA 450, EA 450-1
Power Source	Gasoline Engine

Construction & Design

Key Design Features

- Ergonomic handle grips
- Spiral drill bit design
- Robust engine housing

Bit Material	High-strength steel
--------------	---------------------

Applications

Primary Applications

Fence Post Installation • Tree Planting • Soil Sampling • Landscaping
