

Gasoline Powered Garden Tiller

This gasoline tiller is a powerful machine for cultivating soil in gardens and small farms. Its robust gasoline engine drives rotating tines, effectively breaking up and aerating the soil.

Product Overview

High-Performance Garden Tiller

This gasoline-powered garden tiller is designed for efficient soil cultivation in gardens and small farms. Featuring a 208cc engine with a 6.5HP output, it provides the necessary power to break up tough soil and prepare seedbeds with ease. Its adjustable working depth and reliable gear system make it a versatile tool for both weeding and general soil maintenance.

Engine & Performance

Max Output

6.5 HP

Horsepower

3600 rpm

Rated Speed

Engine Model	B&S CR950-13R2
Displacement	208 cc
Fuel Tank Capacity	3.1 L

Technical Specifications

Working Dimensions

Metric	Value	Unit
Furrow Breadth	780	mm
Tine Diameter	350	mm
Working Depth	160	mm - 300mm

Output Rotation Speed

- Forward: 160 rpm
- Reverse: 45 rpm

Gear System	F1/N/B1 (Forward/Neutral/Reverse)
-------------	-----------------------------------

Logistics & Compliance

Certifications & Standards

CE • EU V Emission Standard

Net Weight	54 kg
Packing Size	720 x 450 x 740 mm
40' GP Capacity	240
