

Gasoline Powered Garden Tiller

This garden cultivator is powered by a 31CC/0.85kW 4-stroke engine. It features durable tines for effective tilling and a user-friendly control system for optimal performance.

Overview

Professional Garden Cultivator

This gasoline-powered garden tiller is engineered for efficient soil cultivation in small to medium-sized garden environments. Featuring a reliable 4-stroke engine, it provides a balance of power and maneuverability for various landscaping tasks. Its lightweight design and ergonomic controls ensure ease of operation for professional and domestic users alike.
