

Gasoline Powered Garden Tiller

This gasoline tiller is a powerful and efficient machine designed for tilling soil in gardens and small farms. It features a robust gasoline engine for reliable performance and adjustable tilling depth for versatile use.

Overview

High-Performance Gasoline Garden Tiller

This gasoline-powered garden tiller is a robust machine engineered for efficient soil preparation in gardens and small-scale farms. Equipped with a powerful 6.5HP engine, it offers reliable performance for tilling, aerating, and soil cultivation tasks. Its compact design and adjustable features make it an ideal tool for preparing seedbeds and managing soil health with ease.

Engine & Performance

Max Output

6.5 HP

Power

3600 rpm

Rated Speed

Engine Displacement	208 cc
Fuel Tank Capacity	3.1 L

Operational Specs

Working Dimensions

Parameter	Value	Unit
Furrow Breadth	480	mm
Tine Rotate Diameter	350	mm
Working Depth	245	mm

Output Rotation Speed

- Forward (F1): 215 rpm
- Backward (B1): 43 rpm

Gear Configuration	F1/N/B1
--------------------	---------

Physical Attributes

Net Weight	72 kg
Packing Size	1110x515x495 mm

Compliance & Logistics

Certifications

GS

Emission Standard	EU V
-------------------	------

40' GP Container Quantity	230
