Overview

Robust Soil Cultivation Solution

This gasoline-powered tiller is a high-performance machine engineered for efficient soil preparation in agricultural and gardening settings. Featuring a 4.0 horsepower engine, it provides the necessary power to break up soil effectively across various terrains. Designed with ergonomics and durability in mind, it ensures reduced operator fatigue and long-term reliability for small to medium-sized farms and gardens.

Technical Specifications

Engine Power

4 HP

Power Output

Model Number	1WG4.0-95FQ-DL
Engine Type	YH168F
Serial Number	16000519921

Features

Key Features

- Adjustable tilling depth
- Adjustable tilling width
- Ergonomic design for reduced fatigue
- Durable tines for effective soil aeration

Ideal Applications	Small Farms, Medium Farms, Gardening, Soil Preparation
