

Gasoline Powered Garden Tiller

This gasoline powered garden tiller features a primer bulb for easy starting and an effective anti-vibration system. Its compact design and adjustable depth control make it suitable for tilling gardens, vegetable plots, and other agricultural applications.

Overview

Robust Soil Cultivation

The gasoline-powered garden tiller is a robust and efficient machine designed for professional soil cultivation and preparation. It features a powerful engine and durable tines that ensure effective soil penetration and pulverization for vegetable plots or agricultural applications. With its compact design and adjustable depth control, this tiller provides excellent maneuverability and customizable performance for various soil types.

Performance

Displacement	168 cc
Maximum Power	3500 W

Technical Specifications

Ignition System	C.D.I
Weight	25 kg

Features

Key Highlights	Gasoline Powered, Adjustable Depth, Ergonomic Handles, Compact Design
