

Gasoline Powered Garden Tiller

This gasoline tiller is a robust gardening tool designed for efficient soil cultivation. Powered by a gasoline engine, this tiller offers high torque and power for breaking up compacted soil and preparing seedbeds.

Overview

High-Performance Gasoline Tiller

This robust gasoline-powered tiller is engineered for efficient soil cultivation and seedbed preparation. Featuring a high-torque engine available in 9HP or 13HP configurations, it provides the necessary power to break through compacted soil with ease. With adjustable working widths and depths, this machine offers the versatility required for various agricultural and landscaping tasks.
