Product Overview

Robust Soil Preparation Solution

This gasoline-powered garden tiller is a robust and efficient machine engineered for reliable soil preparation and cultivation tasks. Featuring a powerful engine and a durable chain-driven design, it delivers the high torque necessary for effective tilling across various soil conditions. With adjustable depth and width settings, this tiller provides the versatility required for small to medium-sized gardens, farms, and landscaping projects.

Technical Specifications

Engine Model	CBS210F
Drive System	Chain Driven
Model Identifier	CBSPT750-A

Key Features

Performance Highlights

- High torque engine for compacted soil
- Adjustable tilling depth and width
- Ergonomic handle design for control
- Durable construction for demanding conditions

Best For	Soil Aeration, Seedbed Preparation, Small Farms, Gardening, Landscaping
