

# Gasoline Powered Garden Tiller with Arc Handle

This garden tiller is equipped with a 170F gasoline engine and durable tines for effective soil turning. Its arc handle design provides ergonomic handling and ease of maneuverability.

## ADDITIONAL IMAGES

## Product Overview

### Professional Soil Cultivation

The SC1000 garden tiller is a robust, efficient machine engineered for optimal soil preparation in both agricultural and small-scale gardening applications. Its ergonomic arc handle design significantly enhances maneuverability while reducing operator fatigue during extended use. Powered by a high-performance 170F gasoline engine, this unit delivers consistent power for effective tilling across various soil types.

## Technical Specifications

Specifications	
Engine Model	170F Gasoline Engine
Rated Power	4.2KW/3600
Horse Power(HP)	7
Fuel Tank Capacity(L)	3.6
Start Mode	Recoil
Driving Mode	Belt+Chain
Gear Shifting	2 Forward, 1 Backward
Tilling Width(mm)	750-1000
Tilling Depth(mm)	≥100
Blade Type	3 groups 4pcs (24PCS)
Tyre Type	4.0-8
Packing	Carton Box/Plywood
N.W	85(kg)

Detailed performance metrics and technical configuration data

### Engine Performance

**7 HP**

Horsepower

**4.2 kW**

Rated Power

**3600 RPM**

Rated Speed

### Operational Data

Feature	Specification
Fuel Tank Capacity	3.6 L
Start Mode	Recoil
Driving Mode	Belt and Chain
Transmission	2 Forward, 1 Backward
Tilling Width	750 - 1000 mm
Tilling Depth	≥ 100 mm
Tire Type	4.0-8

## Equipment & Construction

Blade Configuration	3 groups of 4-piece blades (24 pieces total)
Net Weight	85 kg
Key Features	170F Petrol Engine, Patent Design Fender, Arc Handle Design, Adjustable Depth Control
